

## Battery Charger

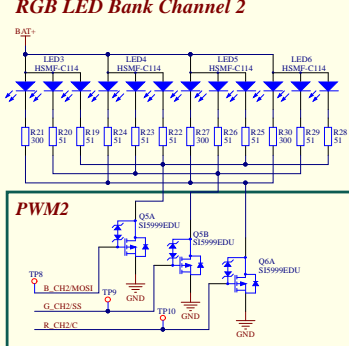

Battery Status Interface

## RGB LED Bank Channel 1

## RGB LED Bank Channel 2

## Precision RTC Breakout

## Connector(Arduino, nRF52DK)

ICSP P5 is placed on top, P6 is placed on bottom.

## Connector(Atom1,2)

## Atomizer Button(DPDT)

## Driver Connector (Piezo, Motor)

## Button (BLE, Atom\_PW, Accessory)

## Atomizer Driver Circuit

## Battery Charger Level

## Cartridge Sense

## Piezo Buzzer Driver Circuit

## Motor Driver Circuit

## Connector(BAT\_PW)

## Connector(EXT\_PW)
